[APC NetShelter SX, Networking Rack Enclosure, 42U, Black, 1991H x 750W x 1200D mm:](#)

An industry standard server rack ready for medium to high density environments with height designed to easily fit through standard doorways. Network rack design enables faster deployment of network switches and an optimized rack mounting space designed specifically for cable and airflow management of large core networking switches and Storage Area Network (SAN) directors. Deeper rack design provides enough rack mounting space for even the deepest devices and still plenty of room for vertically mounting Rack PDUs and cable management.
