Topaz SYSTEMS INC.

SigLite Slim 1x5
T-S461

The Topaz SigLite® Slim 1x5 is a small, pressure-sensitive, low-cost electronic signature pad. It features all the high quality biometric and forensic capture techniques of a SignatureGem® 1x5 signature pad but with a touchpad and stylus in place of the active electromagnetic pen and sensor, making it both space-saving and cost-efficient.
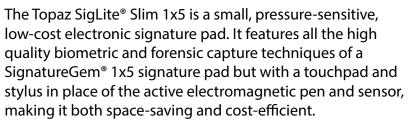

The touchpad sensor reads the digital, binary pressure of the stylus tip and transmits signature data to the computer at high speed for an easy, accurate electronic signature. A thin design and hinged cover protects the unit during transport.

The SigLite Slim 1x5 shows the signature on the computer screen only.

BENEFITS

✓ 3rd-generation touchpad signing surface for **cost efficiency**

✓ Small size, weight, thin design, and hinged cover for **portability**

✓ High-quality **biometric and forensic** capture

✓ Topaz software suite bundled at **no additional cost** for complete signing and signature solution customization techniques
