- Sleek Design: Ultra compact with advanced cable routing
- All Inclusive: Printer, Cash Drawer, Tablet Stand and 1D-scanner
- Extensibility: Multiple USB ports for POS peripherals and one DK-port for an external cash drawer
- Connectivity: Bluetooth and USB. Compatible with iOS, Android, Windows and Mac OS X.
- Security: Counter clip, under counter mount and 3rd party Kensington lock facility
- Added value: Compatible with AllReceipts™, Digital Receipt Solution

Star Micronics's mPOP™, Mobile Point of Purchase, the first hybrid for tablet POS that combines a cash drawer and printer peripheral. With convenient Bluetooth and USB connectivity; this compact, stylish, yet fully integrated peripheral is an ideal solution for tablet and mobile device based POS system. Simply connect your preferred tablet or mobile device of choice and the mPOP transforms into a fully integrated POS system.

The mPOP combines a two-inch thermal receipt printer with "Drop-In and Print" paper loading and a compact cash drawer with 4 bill and adjustable 4 or 6 coin slots. The hidden space under the removable coin till provides extra security for high value currency. For added security, a locking base bracket counter clip is included with the mPOP to ensure reliable mounting on countertops. Enhancing its functionality, the mPOP includes USB ports for charging external devices, optional barcode scanner, and a universal device stand.

supported mobile software and payment system, allowing retailers the freedom of using various platform options. With Apple MFi certification, the mPOP can also connect with the iPad®, iPhone® and iPod touch®. Additionally, the mPOP is compatible with AllReceipts™, Star Micronics' FREE digital receipt solution which is available to download on all iOS and Android mobile devices.

With multiple exit options for enhanced cable management, the mPOP complements any countertop area for a visually appealing POS system.

Now, Star Micronics is adding support for optional mPOP peripherals including a 1D or 2D bar code reader, scale, customer display, and extra cash drawer. Users can now transform their mPOP into a complete point of sale hub.

The mPOP now provides an ideal mPOS solution for a wider variety of retailers and restaurateurs. Aesthetically simple and elegant, the mPOP provides the ultimate point of sale solution for the new face of mPOS.

Compatible with all major operating systems (iOS, Android, Windows & Mac OSX), the mPOP works with many
