

Lexmark 26Z0023 printer kit

Brand : Lexmark

Product code: 26Z0023

Product name : 26Z0023

MS911 Forms and Bar Code Card

[Lexmark 26Z0023 printer kit:](#)

Fast and easy to deploy!

Forms are stored in the printer so there is no server to configure and maintain. There is also a low initial investment for a small number of printing devices.

Generate forms and save in printer

The Lexmark Forms and Bar Code Card is designed to accept electronic forms generated using Lexmark Forms Composer and saved in flash memory or hard disk in Lexmark printers using Lexmark Forms Manager. Requires either flash memory or a hard disk for electronic form storage in the MFP or printer.

Merge and Print

Merge and quickly print forms using only the variable ASCII text data transmitted over the network. This card works in conjunction with the printer firmware to monitor incoming ASCII, SAP RDI or PCL data. In the event that incoming data contains a pattern consistent with conditions set in a resident electronic form, a form merge process is initiated.

Features		Logistics data	
Brand compatibility	Lexmark	Harmonized System (HS) code	84439990
Compatibility	MS911
