Brand : Lexmark

Product code: 27X0200

Product name : 27X0200

320+ GB Hard Disk

[Lexmark 27X0200 internal hard drive 320 GB:](#)

Use a hard disk (160GB or larger) to buffer print jobs, collate large jobs or to store forms, fonts or macros.

These key functions are enabled when an optional hard disk is installed: Job Building, Printer lockout, storage used by Application Solutions such as FormsMerge Job Buffering (print spooling), email spooling, font and macro storage, User-based billing, Job Park (through a power-off and power-on cycle), hard disk-related administration (Disk wiping, Disk encryption, Disk diagnostics).

The 'Disk Encryption' function provides a randomly generated encryption key used to encrypt all data stored on the hard disk. This key generated by each printer is unique to that specific printer.

With 'Printing Lockout', a disk may also be locked with a user PIN. This prevents any submitted jobs from printing. All held jobs are stored on the hard disk until it is unlocked. 'Disk Encryption' should be used with this setting.
