

RAM-A-CAN II™ Cup Holder Wedge Base Assembly Guide

For a video demonstration of this assembly, visit: www.rammount.com/part/RAP-299-3U

You can attach any RAM® Diamond or Round Plate Base to the top of your RAM-A-CAN II™ Base by tapping into the two dimples shown on the top surface with the two provided screws. These dimples are hollowed out from the inside, so only a screwdriver is required for attaching. **Do not over tighten screws.**
