HPE Synergy Dual 10GBASE-T QSFP+ 30m RJ45 Transceiver (838327-B21)

Transceivers

Overview

Would you like an easy connection between HPE Synergy Image Steamer and HPE Synergy Interconnect Modules? The HPE Synergy Dual 10GBASE-T QSFP+ 30m RJ45 Transceiver is designed to convert the QSFP+ ports into dual 10GBASE-T ports on HPE Synergy 40Gb F8 Switch Module or HPE Virtual Connect 40Gb F8 Module for HPE Synergy. This conversion allows you to connect HPE Synergy Interconnect Modules with HPE Synergy Image Streamer using RJ45 cables, enabling integration of stateless provisioning with Synergy software-defined intelligence connected to Synergy server profiles. In

addition to a connection with HPE Synergy Image Streamer, this transceiver provides dual 10 Gb connections through a QSFP+ port on the HPE Synergy Interconnect Modules for other high speed communication links that require 10GbE over Cat 6a/7 cables.

Technical specifications

HPE Synergy Dual 10GBASE-T QSFP+ 30m RJ45 Transceiver

Product Number (SKU)	838327-B21
Ports	two RJ45
Connector type	QSFP+/RJ45
Wavelength	N/A
Transceiver form factor	QSFP+
Minimum dimensions (H x W x D)	12.65 x 18.34 x 131.32 mm
Weight	84.2 g
