

Item no.: LV0231008

Steel splice sleeve 45 mm Multimode

PRODUCT OVERVIEW

The steel splice sleeve are used during installation of fiber optic cables, where 2 cables needs to be joined and held in place.

The minimum shrink temperature for the sleeve is 120°C

SPECIFICATIONS

| Length | 45mm | |
|-----------------------|----------------------|--|
| Outer diam. | 2,4mm | |
| Operating temperature | -45°C -+110°C | |
| Min. shrink temp. | 120°C | |
| Standard | BS 2056 302 S26 spec | |
| Packaging | BULK 100 pcs | |

SPECIFICATIONS

| | TEST METHODS | TYPICAL DATA |
|----------------------------------|--------------|--------------|
| Tensile strength | ASTM D 2671 | 18Мра |
| Ultimate elongation | ASTM D 2671 | 700% |
| Density | ISO R1183 D | 0.94g/cm2 |
| Electrical breakdown strength | IEC 243 | 20KV/mm |
| Electrical breakdown coefficient | IEC 243 | 2.5max. |
| Longitudinal shrinkage | ASTM D 2671 | ±5% |
