

- Mesh front panel for optimized airflow
- 3x A-RGB Rainbow Fans pre-installed
- 2x Tempered glass for perfect view of system
- Supports 280mm radiator in front & 240mm radiator on top

The Chieftronic M2 is the next upgraded iteration of the original M1 gaming cube case for significantly improved performance. The newly designed front panel incorporates mesh for optimized airflow, the increased number of stock fans to 3 pieces and the added support for 240mm radiator in the top panel, in addition to the front support for 280mm radiator, makes the M2 a very capable case for a high-performance gaming rig.

Side panels made from tempered glass allow a clean view of the installed system and the case comes with a certified A-RGB control hub, ensuring M/B sync compatibility with: ASUS™ Aura, ASRock™ RGB Sync, MSI™ Mystic Light Sync and Gigabyte™ RGB Fusion.
