

Aegis Configurator

U.S. PATENT NO. 9,720,700

CONFIGURE MULTIPLE AEGIS DEVICES SIMULTANEOUSLY

CONFIGURE UP TO 10 COMPATIBLE APRICORN DEVICES AT ONCE

AUTOMATICALLY AND QUICKLY SETS ADMIN AND USER PINS

ABILITY TO STORE LOG FILES TO RETRIEVE DEVICE SETTINGS AND RECOVERY PINS

SECURELY LOAD FILES ONTO DEVICES DURING SETUP PROCESS

DATA-ENCRYPTED SECURE IMPLEMENTATION

CREATE AND SAVE MASTER PROFILES

ABILITY TO MANAGE AND EDIT MASTER PROFILES

DEPLOY PROGRAMMED DEVICES TO USERS IN A FORCED-ENROLLMENT STATE

ABILITY TO QUERY THE DATABASE FOR SPECIFIC DEVICE SETTINGS

SUPPORTS ADVANCED FEATURE SETTINGS:

- PROGRAMMABLE PIN LENGTHS
- RANDOM PIN GENERATION
- RECOVERY PINS
- SELF-DESTRUCT PINS
- PROGRAMMABLE NUMBER OF BRUTE FORCE ATTEMPTS
- LOCK OVERRIDE
- DEVICE FORMATTING
- LED BUTTON PRESS INDICATOR
- USER FORCED ENROLLMENT
- TWO READ-ONLY MODES

COMPATIBLE WITH WINDOWS 7, 8, AND 10

Advanced Feature Sets, Stored Profile Settings, Multiple Drive Setup Capability, and an Intuitive User Interface Make the Aegis Configurator an Indispensable Tool for Device Deployment.

Quickly Create Master Profiles, Customize Settings, and Preload Data onto Multiple Apricorn Drives.

Intuitive, simple, and secure. This Windows-based application quickly programs features and PINs into compatible Aegis secure devices. The Configurator will recognize compatible devices and allow Administrators to program/configure/provision all of Apricorn's compatible USB 3.0 and later security devices.

From the USB Key, simply load the Configurator program onto a secure Windows-based PC. Once registered and launched, start with the *Create Profiles* panel to generate customized profiles for each device type / user group. Then connect compatible devices to the host system via the USB port/hub and select the desired devices and profile via the *Configure* option and press *Apply*. To view setting of programmed device, select the *Query Devices* option. Use the *Edit Master Profile* panel to edit or change profiles and save new versions.

| Security | Benefits |
|---|--|
| Secure Implementation | All data is encrypted and once a device has been configured, the Configuration pathway is locked down from the inside of the individual device by its firmware. For a device to be reconfigurable, it must be completely reset and returned to its "out of box" state. |
| Log File | Create and maintain secure log files of User PINs, recovery PINs, and device settings created at time of configuration. |
| Forced-Enrollment / User Forced Enrollment | Requires creation of a unique Admin PIN in configuration; additionally allows forced enrollment feature to be extended to User to create User PIN after device configuration |
| Administrator Mode | Allows enrollment of up to 4 independent users (depending on device) and one administrator for setting parameters for PIN management, Read-Only, Auto-Lock, Self-Destruct, Lock-Override, Brute Force, Format and Load Files onto Devices |
| Compatible with Windows 7, 8 and 10 OS | Works with Microsoft Windows 7 and later |
| Features | Benefits |
| Multiple Drive Setup | Easily configure up to 10 or more devices simultaneously |
| Document Pre-Load Ability | Securely pre-load documents / data on drives being configured as part of the configuration process |
| Recovery PINs | 4 one-time use PINs to recover Data in cases of forgotten User / Admin PINs |
| USB 3.0 Interface | Compatible with any computer USB port |
| Aluminum Enclosure | Rugged and Durable Hub Enclosure |
| Automatic PIN Generator | Automatically set random PIN numbers |
| Programmable Minimum / Maximum PIN Length | In conjunction with Auto PIN Generator, set PIN lengths to any number of characters between 7 and 16 |
| Manage / Edit Master Profiles | Create profiles for groups of devices, edit master profiles, save variations |
| Works with the Following Apricorn Secure Products | Aegis Secure Key 3z, Aegis Padlock (configurable), Aegis Fortress (configurable), Aegis Padlock DT (configurable) |
| Box Contents | Configurator Software (USB Key), 10-port HUB, 5-AMP Power Supply, USB 3 Cable, Quick Start Guide |
| Specifications | |
| Interface | USB 2, 3.0, 3.1 gen 1 |
| Dimensions & weight | size: 9.5" x 8 x 3.2 (with Hub) weight: 3 lbs. |
| Warranty | 3-year limited |
| System Requirements | Windows 7, 8, 10; PC compatible computer with Pentium dual core CPU or newer, USB Port, 128MB available RAM, 100MB available space for program and log file |
| Ordering Information | USA Part Number: AP-CONFIG-KIT; EMEA Part Number: AP-CONFIG-KIT-EMEA |

*One gigabyte (GB) = one billion bytes; accessible capacity will be less and actual capacity depends on the operating environment and formatting.
