- 5 years warranty

Smart Plug with Energy Monitoring! Say goodbye to the guesswork of how much energy your appliances are consuming and hello to a smarter, more efficient home. With this innovative smart plug, you'll have complete control over your appliances and the power they consume.

Easily monitor your energy usage through our user-friendly app. You can track your usage in real-time and see which appliances are using the most energy. With this information, you can make informed decisions about how to reduce your energy consumption and save money on your monthly bills.

With the DELTACO Smart Home app, managing your switch becomes as easy as it can get. Installation is quick and smooth without the need for special hubs or gateways - all you need is a working wireless network. With the app, you can not only start or turn off the power , but you can also use features like timer and scheduling. Do you want the power to turn off after a certain time? No problem - just set a timer in the app! Do you want to have the power button on at specific times during the day? No problem - schedule it in the app instead! And best of all, the app even allows you to create automatic actions. For example, you can set the switch to turn off when the sun goes down or group several switches together to perform the same action at a given time.

With the DELTACO Smart Home app, you can be sure that you always have full control over your switch. And the best part?

The app is available for free for both Android and iOS!

SPECIFICATIONS
