

PowerWalker Solar Inverter SVN 3-3

Accessory Parts

Manual for
Accessory Combination

Depending on the Use-Case and Battery Type

Solar Inverter + Lead Battery:

For the Communication the user has the following options:

- USB-Port (Built-in)
- W-LAN Module (10131018)

If the user wants to use an Energy Meter (10139019), they can use the Intelligent Slot.

Solar Inverter + Lithium Battery:

In this case there are two possible options:

- With Energy Meter,
- Or without Energy Meter.

With Energy Meter you require following accessories:

For communication: USB-Port (Built-in) or W-LAN Card (10131020)

For BMS (necessary for the Lithium Battery Communication): ModBus Duo Box (10131019)

For the Energy Meter: ModBus Duo Box (10131019)

The **ModBus Duo Box** has both communication ports, for both the BMS and the Energy Meter.

Without Energy Meter you require following accessories:

For communication: USB-Port or W-LAN Module (10131018)

For BMS (necessary for the Lithium Battery Communication): BMS Card (10131017)
