PTP Bundle using MH-BU and 3-Port MH-TU inc MK & POE 1Gbps Capacity

[SilverNet SIL TDD60M30-PCP bridge/repeater Network bridge 1000 Mbit/s:](#)

SilverNet TDD60M products operate in the widely available and license exempt 60GHz V Band and deliver multi Gigabit throughputs.

In addition to the industry leading 400 meters range in PtMP configuration, the 60GHz Shorthaul series integrates advanced beam forming meaning there is no alignment necessary between the Base Unit and the Terminal Unit. This plug and play installation coupled with zero-touch configuration approach means shorthauled networks can be deployed rapidly and cost effectively by a single person.
