[Lindy 1m USB 2.0 Type Micro-B to Mini-B OTG Cable:](#)

The Lindy USB Type Micro-B to Mini-B OTG cable enables a direct connection between two USB devices, with one device being the host and the other one being the peripheral. The connectors feature different colours for better differentiation.

The red marked connector is the OTG host and should therefore be connected to the device which should serve as a host. Please note that the cable does only work in one direction.

The cable is compatible with many devices featuring a USB Type Micro-B/Mini-B port such as smartphones, cameras, E-Bike computers. It can e.g. be used to connect a GPS device to an E-Bike computer to power, or to transfer images from a camera directly to the smartphone.

Lindy USB Type Micro-B to Mini-B OTG Cables are available in the following lengths: 0.5m, 1m and 2m.
