# Speaker System SP-484SM

High-end speaker system extends display capabilities

## High-End Quality Speaker System for NEC Large Format Displays MultiSync® V484 and P484

The side-mounted speaker system delivers superior sound quality seamlessly combined with the 48" Large Format Displays V484 and P484. The result is sound and vision excellence. The powerful audio performance makes the SP-484SM a perfect fit for music and movie playback and also allows voice to be received with clarity anywhere in a room.

The speaker's superior sound quality extends the display capabilities making the combination ideal for video conferencing in corporate office and educational environments and perfectly adds audio support for video playback in a variety of applications such as meetings and conferencing, product presentations and at the point of sale.

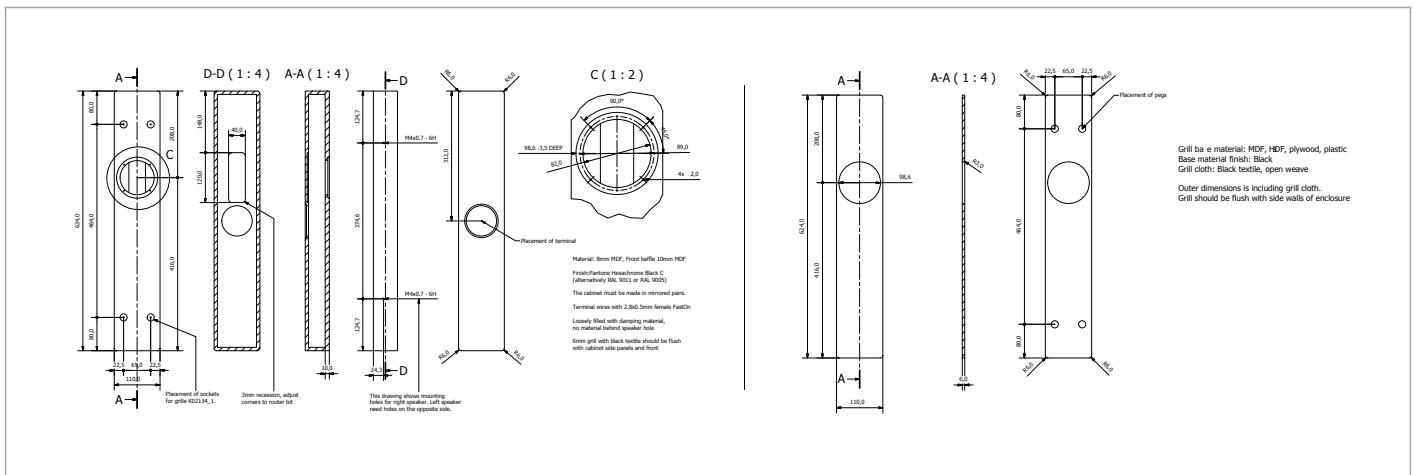

SP-484SM MOUNTED TO NEC MULTISYNC® V484

## Delivering Genuine Benefits

- **Best of audio and vision** – The ultra-low distortion speakers deliver excellent speech intelligibility, seamlessly combining audio and visual excellence.
- **Perfect fit design** – the unobtrusive and modern styling ensures a harmonious connection between the speaker system and the display.
- **Fast and easy installation** – only requiring a few clips for installation or removal.
- **Excite with clarity** – the wide dispersion extends the sweet spot anywhere in the room, transmitting the spoken word with perfect clarity to the participants of web or telephone conferences and remote meetings.
- **Sophisticated engineering with crisp audio** – the solid MDF cabinet effectively minimises potential resonances and interactions with the loudspeaker.
- **Mission-critical 24/7 ready operation** – with reliable, industry grade components and NEC trusted performance.
- **A Commitment to Quality** – 3 years warranty to match the display warranty and meet long-term demands ensuring peace of mind.
